

MTV VJ and model Denise Keller Visits Our Cancer Patients

Following Jackie Chan's visit to Viva-University Children's Cancer Centre (VUC³) in March 08, another celebrity - popular MTV VJ and model Denise Keller, came by VUC³ to show her care and support for our young cancer patients, on 30 May 08!

Denise took time off amid her work schedules to visit, and brought much smiles to the kids as she talked and interacted with each of them at their bedside!

The younger children were also presented with 'Dora's adventure' goodie bag she had brought along, which made their day!

On behalf of the kids and VUC³ – A very big **THANK YOU, DENISE!** ☺
