

Centre of Reproductive Education and Specialist Training (CREST) is the first specialised training centre in Asia Pacific for Assisted Reproductive Techniques (ART).

ART Course for Clinicians

The course covers all aspects of an in-vitro fertilisation (IVF) cycle, from pre-treatment evaluation and investigations, through the entire treatment path, to planning for future cycles. It also explores the ethical and economic implications of treatment today.

9 days @ SGD \$5,130 *(inclusive of GST)*

25 July - 2 August 2026

ART Course for Embryologists

The course covers all aspects of an ART laboratory, including the set-up and lab operations, specific procedures and quality control to ensure the highest possible success rates in an IVF programme. Classes are conducted in our training laboratory equipped with an integrated murine system and state-of-the-art equipment for effective ART procedures. The Faculty will work individually with trainees throughout the course, providing a comprehensive overview and continuous assessment.

20 days @ SGD \$11,970 *(inclusive of GST)*

2 - 27 March 2026

5 - 30 October 2026

A Concise 5-Day IVF Lab Workshop

The workshop covers a brief hands-on exposure to lab experience.

5 days @ SGD \$6,270 *(inclusive of GST)*

3 - 7 August 2026

2 - 6 November 2026
