NUH CHILDREN'S FUND DONOR REPORT

(August 2024 to July 2025)

Scan this QR code or visit for.sg/abtnuhsfund to find out more about us!

ABOUT NUHS FUND

NUHS Fund Limited is a Company Limited by Guarantee (CLG) and a registered charity with IPC status.

The charity was set up to promote medical research and development as well as provide health related services for the benefit of the Singapore Community.

Your compassion to support patients, especially those assessed to be in financial need, will make a difference in their journey back to better health.

ABOUT NUH CHILDREN'S FUND

NUH Children's Fund supports children undergoing treatment at the Khoo Teck Puat – National University Children's Medical Institute (KTP-NUCMI), the paediatric arm of the National University Hospital and principal teaching facility of the Department of Paediatrics of the Yong Loo Lin School of Medicine, National University of Singapore.

The focus of KTP-NUCMI's academic, research and clinical programmes is to find better ways to assess, manage and treat paediatric conditions to enable our young patients to realise their fullest potential and achieve their best in health and in life.

Philanthropic support provides us with the extra assistance to excel in what we do – provide the best possible outcomes for our young patients. Your support will help to change the future of these young lives in Singapore.

Kidney

11%

Neurology

9%

Genetics / Rare Diseases

7%

Others*

36%

*Musculoskeletal, Skin, Eye, Psychiatry, Heart & other diseases.

BY SUPPORT CATEGORY

Based on dollar amount supported

Your Gift Matters!

7-year-old Marie* lives with multiple health issues, including respiratory and heart conditions, and relies on specialised milk feeds for nutrition and growth.

Marie's parents are also battling chronic health conditions. As the sole breadwinner, her mother's income is stretched to cover their medical bills and support the family, which includes an older sibling and grandparents.

**Name has been changed.*

Thanks to your generosity, Marie is able to receive the specialized milk feeds she needs, easing the financial burden on her family.
