

# RadioPath 2023

15 July 2023, 8am - 4pm  
Shaw Foundation Alumni House,  
National University of Singapore

RadioPath is a case-based course series offering unique cross-disciplinary training and education experience on imaging and tissue diagnosis, rotating through the various organ system topics over the years.

In this series, we will cover the urinary system, male and female genital organs and paediatric chest, abdomen and pelvis, with radiology hands-on.

Course Objectives:

- \*Enhance understanding of the pathological basis of organ disorders.
- \*Apply principles of radiologic-pathological correlation to the interpretation of radiological investigations.
- \*Implement principles of radiological features of diseases for pathological diagnosis.
