

How to Manage Bleeding using Viscoelastic A5 Algorithms and Coagulation Factor Concentrates

Date: Thursday, 2 March 2023
Time: 08.30 – 16.00
Venue: NUH Department of Anaesthesia,
Main Building, Level 3

Course Objectives

- Interpretation of point-of-care viscoelastic tests in different clinical scenarios
- Correct dosing of coagulation factor concentrates (e.g. fibrinogen concentrate, prothrombin complex concentrate)

...with the aim of avoiding or minimizing transfusion of blood products in cases of severe bleeding, in line with the basic principles of Patient Blood Management.

Features:

- Hands-on interactive teaching in small groups
- Assessment & Certification

(CME points pending approval)

Target Participants

Recommended for doctors and nurses in anaesthesia, critical care, emergency medicine, surgery, hepatology, gastroenterology, obstetrics and specialties that encounter bleeding patients.

Faculty

Dr Christopher King
(Course Director)

Dr Rohit Agrawal

Dr Teo Wei Wei

Dr Tan Yi Wei

Dr Tan Pei Shan

Course Fees

Specialists – S\$300

Non-Specialists – S\$150

Non-Physicians – S\$100

Includes lunch & refreshments.
Registration closes 15 February 2023.
