

Dear Patient and Caregiver,

We strive to serve every patient with the utmost care. Due to the high number of patients and nature of emergency visit, the wait time to see a doctor may be long. The estimated wait time is displayed on the TV and notices at the entrance.

A nurse will assess your condition after registration. As critically ill patients are seen first, queue numbers will not be called in sequence.

Please find some useful information below. If you need further assistance, do approach our staff.

Need a bite/amenities?

These are the nearest options.

Your Journey at NUH Emergency Department (Walk-in)

Temperature Screening (5 - 10 mins)

Our staff will take your temperature and do a simple health declaration check.

Registration & Payment (5 - 15 mins)

For your convenience, A&E registration and payment will be done here. Patient may be isolated if condition is suspected to be contagious.

Triage (15 - 60 mins)

Patients assessed to have more urgent conditions will be seen in another observation area.

Consultation (1.5 - 3 hours)

Assessment by a doctor and possible additional tests* (e.g. x-ray, blood test). The doctor will decide if you require admission.

Discharge

Collection of Medicine
(15 - 45 mins)

*Additional charge will be collected for non-standard drugs or investigations.

Ward

Inpatient Admission
(3 - 20 hours)

You will be transferred once there is an available bed in your ward class.
