

MICROSURGERY TRAINING LABORATORY

Certificate Course in Microsurgery (5 days)

This course is the core course of our laboratory and caters to surgical trainees that have minimal prior exposure to microsurgery. The course is conducted from Monday to Friday and includes theoretical (4 hours) and practical components (30 hours). Participants can do up-to 30 end-to-end anastomosis that includes 12 anastomoses in a live rat model.

Day 1 (Monday)

0830 - 1000hrs: Introduction to the microscope, micro-instruments, and

microsurgical technique (video)

1000 – 1100hrs: Latex strip model (Beginner) - 3orientations

1100 - 1115hrs: Coffee Break

1115 - 1245hrs: Latex Strip model (Advanced) - 3 orientations with software evaluation

1245 - 1345hrs: Lunch Break

1345 - 1400hrs: Vessel repair video

1400 – 1700hrs End to end repair of lifelike bio-tissue artery (2mm dia.) (Up to 3 repairs in a 6 cm

segment)

Day 2 (Tuesday)

0830 - 1000hrs: End to end repair of lifelike bio-tissue artery (1mm dia.) (Up to 3 repairs in a 6 cm

segment)

1000 – 1015hrs: Coffee Break

1015 – 1030hrs: Chicken thigh video

1030 – 1230hrs: Dissect and repair chicken thigh artery, vein, and nerve

1230 – 1315hrs: Lunch

1315 – 1445hrs: Chicken vessel anastomosis (Up to 3 repairs)

A member of the NUHS

1445 – 1500hrs: Coffee Break

1500 – 1700hrs: Chicken vessel anastomosis (Up to 3 repairs)

Day 3 (Wednesday)

0830 - 1000hrs: Latex Strip model (Advanced) - 3 orientations with software evaluation

1000-1015hrs: Coffee Break

1015 – 1115hrs: Video (Rat femoral artery)

1115 – 1215hrs: Rat dissection and repair (Right femoral artery)

1215 – 1230hrs: Video (Rat femoral vein)

1230 - 13<mark>30hrs: Lunch</mark>

1330 – 14<mark>30hrs: Rat dissection and repair (Right femoral vein)</mark>

1430 – 1445hrs: Coffee Break

1445 – 1700hrs: Rat dissection and repair (Continuation of left artery and vein repair)

Day 4 (Thursday)

0830 - 1000hrs: Latex Strip model (Advanced) - 3 orientations with software evaluation

1000-1015hrs: Coffee Break

1015 – 1230hrs: Rat dissection and repair (Right femoral artery and vein)

1230 - 1330hrs: Lunch

1445 – 1700hrs: Rat dissection and repair (Continuation of left artery and vein repair)

Day 5 (Friday) – Assessment day

0830 - 1000hrs: Latex Strip model (Advanced) - 3 orientations with software evaluation

1000-1015hrs: Coffee Break

1015 – 1230hrs: Rat dissection and repair (Right femoral artery and vein)

A member of the NUHS

1230 - 1330hrs: Lunch

1445 – 1700hrs: Rat dissection and repair (Continuation of left artery and vein repair)
